

# Gunnebo Sustainability Approach

Gunnebo's vision is to be a leading provider of a safer future by supplying solutions which protect people, valuables and assets. We strive to have the best security products that make a difference in managing cash, protecting assets or controlling the flow of people.

The Group's mission is to create **a safer world** – for its customers, business partners, employees and society as a whole. When it comes to sustainability, we are committed to:

## Our Business

### Financial Performance

Achieve our financial goals by driving a sustainable business

### Governance

Demonstrate clear and ethical leadership

### Suppliers

Establish clear guidelines and expectations for our suppliers and implement necessary controls

## Our People

### Health & Safety

Provide safe working conditions and prevent any major incidents

### Development, Training & Engagement

Develop our employees and our organisation

### Community

Act positively in the local community

## Our Impact

### Climate & Energy

Reduce our energy consumption and our CO2 emissions

### Natural Resources

Optimise our use of water and raw materials

### Waste

Manage our waste to reduce its impact
